September 24, 2025

Build-A-Thon 2025

BVIMR , New Delhi

- Mentored top 30 finalist teams (out of 500+ Teams) during an offline hackathon.

President & Founder

2025 – Present

QuantaLoop Technical Society, BVIMR

Delhi, India

- Founded and lead QuantaLoop - The Technical Society, establishing vision, execution strategy, and technical direction while organizing workshops and coding competitions

PROJECTS

UHI Care – Open Healthcare Platform | *React, Node.js, Supabase, WebRTC, AI Automation*

- Built healthcare platform with real-time doctor-patient video consultations using WebRTC and AI-powered automation for appointment scheduling and prescription generation
- Architected Supabase backend with structured data syncing, secure authentication, payment processing, and automated notifications

MediBot – AI Wellness Assistant | *React, Node.js, Gemini API, NLP*

- Developed conversational AI assistant delivering personalized Ayurvedic remedies, fitness routines, and health guidance using Google Gemini API
- Integrated appointment booking system with medication reminders and health journey tracking for streamlined patient engagement

TechGear – E-commerce Platform | *React, Node.js, Express, Supabase*

- Built full-stack e-commerce platform with secure admin portal, comprehensive inventory and stock management, and order control system
- Implemented real-time client-side ordering with payment processing and designed responsive UI with cross-platform compatibility

CERTIFICATIONS

Google Cloud: Build Real World AI Applications with Gemini and Imagen, Prompt Design in Vertex AI, Develop GenAI Apps with Gemini and Streamlit, Explore Generative AI with Vertex AI Gemini API, Inspect Rich Documents with Gemini, Multimodality and Multimodal RAG
